National Directory of Hospital-based Violence Intervention and Prevention Programs  
Updated May 2009

*Introduction*

This National Directory of Hospital-based Violence Intervention and Prevention Programs was compiled by staff at Youth ALIVE!, a non-profit public health agency dedicated to preventing youth violence and generating youth leadership in California communities experiencing high rates of violence. The programs listed here all provide interventions with youth and young adults who are hospitalized due to violent injuries to reduce retaliation, re-injury, and arrest. Individual programs vary in terms of the specific target populations served, the length and type of services, and additional programs and services offered.

Every effort has been made to compile complete and accurate information for this directory. Even though extraordinary efforts were made to ensure its accuracy, Youth ALIVE! will not be responsible for errors or omissions in this directory. The information contained herein should not be construed as an endorsement of any member, company, or individual, nor reflect in any way upon the products and/or services provided by an organization or individual.

If you would like your program to be listed in this directory, please contact Marla Becker at [mbecker@youthalive.org](mailto:mbecker@youthalive.org) to learn about the process for inclusion.

## Existing Programs

### **Aim4Peace**

City Hall Manager's Office  
414 E. 12<sup>th</sup> Street  
Kansas City, MO 64106  
Phone: (816) 513-7902
